Inquiry Focus:**
People are impacted by both internal and external factors.
Choices we make as individuals affect self, family, community and the world.
Personal attitudes, behaviours, knowledge and skills promote self-awareness, personal responsibility and self-direction.

Room 19 invited Rooms 12 and 22 to join them when Jonathan came to visit. Jonathan is tetraplegic after a car accident 13 years ago. He explained to us how that while things can happen in life to cause our dreams to change, we can still set goals and still achieve dreams.
